Dr. Harold Wong,

On behalf of the APS/Pinnacle West Retirees' Association, I want to thank you very much for taking the time to come to our Jan. 12th 2017 meeting. The information you gave us on both the stock market and bond market can be used by many of us to improve our retirement money management strategies. I especially appreciate your candid view of the US Presidential election results.

Given your many years of dealing with the public, it is probably hard to discuss finances on a common-sense approach without wanting to shout at your audience. It isn't that we are dumb but more like we are not educated in terms that will make our financial future more secure. The information available on your website is also a very valuable resource for people who want to learn more about managing their finances.

Your presentation "Secure Your Financial Future: Lessons from Warren Buffett!" was both timely and insightful.

The fact that the US Presidential elections recently completed and gave us a very controversial leader puts the US economy under a lot of pressure. Your discussion makes use of common sense approaches to managing our retirement funds, which hopefully will allow normal everyday people to survive any US economic fallout from the election.

Your presentation made me feel like there is hope, and if I follow some sensible ideas I will be able to live a long and somewhat prosperous life.

Please continue to be the strong spokesperson for rational retirement money management strategies and thank you for educating our small group of retirees.

Sincerely,

Bob Clark

Bob Clark,
Secretary
APS/Pinnacle West Retirees' Association
