Dear Dr Wong,

I have been the Programs Chair for the Club for over 10 years and booking quality programs is always a challenge. I was fortunate to read some of your columns in the Arizona Republic and pleased with your accepting our invitation to allow us to be part of your investment educational campaign.

Again, we express our thanks for your informative presentation on investing that was tailored primarily to Senior Citizens. Our members are of a diverse age group. The older members were much impressed with comparing their situations to investment scenarios you presented. The younger members took note of both their own investment strategies and that of their parents.

I realize you compressed, what is usually a several-hour course, into about a 35 to 40 minute time slot, and the members very much wish to invite you to return in September. Please consider Thursday, September 22, 2009 with your continuing education course based on "Roth IRA: How to Have Tax-free Income for Life!".

Sincerely,

John Replogle  
Programs Chair
