Dear Program Chair,

This is a letter of testimony regarding our recent professional interactions with Dr. Harold Wong. I work for Realty Executives Phoenix real estate brokerage, one the largest and well regarded brokerages in the industry. We recently held an all company event. At this event we were scheduled to have a panel discussion regarding the future of Maricopa County. One week prior to the event we realized we were missing one key panelist, an economist. I asked other key industry leaders if they knew of an economist who might be a good fit for our topic and two people from First American Title Company recommended Dr. Harold Wong. I immediately called Dr. Wong to see of his availability and to my surprise he indeed was available.

In a short 6-day time period Dr. Wong was amazing and easy to work with. He quickly made himself available to make sure he was prepared for the event (with his travel and speaking schedule I was impressed). He was gracious with his time, to make sure he understood the goal of the event. He quickly responded to our event needs such as reviewing questions as well as providing his headshot, title position and biography.

Additionally, at the event, Dr. Wong was one of the top panel speakers that day. He went above and beyond by bringing his owned videographer. He is engaging, funny, articulate and left our audience members wanting more information and insight. He truly understood the mentality and personality of our audience and quickly gained supporters and followers. We were even asked about the possibility of Dr. Wong coming back as a key note speaker, which is indication as to the value his brings. I highly recommend Dr. Wong for speaking engagements.

Should you have any questions, please feel free to contact me:
