

LA SIENA

March 16, 2010

To Whom It May Concern:

This letter serves as a testimonial for seminars conducted by Dr. Harold Wong. The first seminar presented was named "After the Wall Street Melt Down and What Strategies Make Sense." Giving our residents ideas of what they can do to help themselves during times when their portfolio had been so disrupted by the failures of Wall Street was well received. In laymen terms, Dr. Wong explained what happened and how we can protect ourselves? Our question and answer session was most informative as everyone participated.

Dr. Wong also presented a seminar named "What Women Should Know About Money". Explaining how women can legally handle their family's estate was informative. With humor and important facts, attendees left the seminar with a clear understanding on how to protect their assets in the event of a death. It was great to see how some of the ladies would nudge their husband at some points of the seminar.

We have contracted for another seminar hosted by Dr. Wong called "Finding the Holy Grail of Tax Planning: The Roth IRA". We have received a high level of interest once more. We anticipate much success with Dr. Wong's expertise and ability to give clear details about the economics of our era and personal aid.

We highly recommend Dr. Wong seminars and would invite him back in the future.

Sincerely,

Craig Martin
